

STEM (Science, Technology, Engineering, Mathematics)

In keeping with Miami-Dade County Public School's vision, C.O.P.E. Center North aspires to engage and prepare our students in Science, Technology, Engineering, Mathematics (STEM) to ensure our toddlers have the foundation to become the next generation of inventors, explorers, innovators, artists and leaders.

C.O.P.E. Center North uses (STEM) and real-world environmental lessons to engage students in investigation and discovery. This hands-on approach allows for natural curiosity and further stimulates their interest. Through STEM lessons, our toddlers engage in scientific inquiry, mathematical analysis, technology enhancement and engineering design.
